### Senior Pets

Over the years I have seen so many of my friends, family members, and clients lose their furry friends and I always say to myself "I hope they have lots and lots of photographs to remember them." I'm sure they all do, we all have cell phones and mine is full of pictures of my pets. But I do always wonder ...what if they didn't have photos? What if they didn't have prints to put on the wall? What if they are looking through their phone right now wishing they had a picture *with* their pet? Those thoughts makes me incredibly sad, but it also gave me an idea.

I offer the *Furry Friends* package for those who are just as obsessed with their furry friends as I am with mine. I love it and I will continue to offer it, but senior pets are different. Senior pets are a little extra special.

For those who have an older pet, one that entirely too quickly has white fur around their muzzle, one that may have limited time left with you, one that will forever hold a place in your heart but may not yet have a place on your wall, I would like to offer the Furry Friends package for *free*.

I think it's that important. I think our pets are that important.

Please contact me directly if this package would mean as much to you as it does to me. I would be honored to capture your senior pet for you.
